The Central Florida Dog & Disc Club: Having high-flying fun with your dog!

You may have seen them at the park, on the beach, or performing for audiences at an event. They are the Frisbee® dogs, a special breed of high-flying canine!

The Central Florida Dog & Disc Club was officially started in January, 1993 . Since then, the club has grown each year in membership and now spans the entire state. We continue to have fun playing Frisbee® with our dogs, which is what we are all about.

Our goal at Central Florida Dog & Disc is to promote the sport of canine flying disc within the central Florida community, and to provide fellow canine flying disc enthusiasts with a common bond and an avenue to pursue their passion for canine flying disc sports.

Just Catch it!

Why would anyone want to play Frisbee® with their dogs?

First, it provides a healthy form of exercise for both dog and owner alike by providing a fun activity that both dogs and people can enjoy together.

Second, it helps promote the bond between you and your pet. For a dog that is an active breed or has lots of energy, it also provides an outlet for them through the activity of running, chasing, jumping and catching the Frisbee® disc. Most importantly, it's a great way to get out and have fun with your dog, travel, and meet new people!

Canine Frisbee® is something that can be enjoyed by almost any dog regardless of breed, age or gender. Some of the best Frisbee® dogs have come from adoption shelters or breed rescue programs, going on to become champion disc dogs.
